**“MAIN LABOUR FORCE INDICATORS BY PROVINCE, 2011-2012”
PRESS RELEASE WILL BE ANNOUNCED
ON 2 DECEMBER 2013 AT 10:00.**

Turkish Statistical Institute, calculated the main labour force indicators for 2011 and 2012 concerning the labour force participation rate, employment rate and unemployment rate with the confidence intervals at the level of 95% and coefficient of variance by province, which were obtained both the original variables from household labour force survey and external variables determined by econometric studies based on the administrative registers (province population and other demographic indicators, Social Security Institute data, Turkish Employment Office data etc.).

Press release of “Main Labour Force Indicators By Province, 2011-2012”, which is not included at the 2013 National Data Release Calendar, will be announced on 2 December 2013 at 10:00.

Announced to the public.
