ANNOUNCEMENT

Evaluation of time series as seasonal and calendar adjusted and calendar adjusted has a great importance in analysis of economic developments. Together with comparison of published official data with the same month of previous year and previous month, being able to make comparisons within successive month provides an additional value in terms of data analysis.

Accordingly, data of "Milk and Milk Product Production and Poultry Production" related to January 2014 will be released on 12 March 2014 at 10:00 am for the first time as seasonal and calendar adjusted and calendar adjusted.

Announced to the public with respect.
