### ANNOUNCEMENT ON LABOUR COST INDEX

Labour Cost Index, disseminated by TurkStat with the base year 2010, uses coefficients of expansion obtained from Annual Industry and Services Statistics results for industry and construction sectors with the size class of 1-19 employees. Due to inadvertently usage of these coefficients of expansion, Labour Input Indices are needed to be updated as of 2010. Updated indices will be disseminated on **June 05, 2015 at 10:00 am**, with the Labour Cost Index, I. Quarter: January-March 2015 press release.

Announced to the public with respect.
