PUBLIC ANNOUNCEMENT ABOUT LABOUR INPUT INDICES

Turkish Statistical Institute completed the studies on integrating administrative records for the calculation of labour input indices which is one of the main objectives of Official Statistics Programme 2017-2021 regarding "Use of Administrative Records in Production of Business Statistics". The Social Security Institution and the Revenue Administration's administrative data were used as the primary source and the administrative data of the Banking Regulation and Supervision Agency were used for the Finance and Insurance Activities.

According to international norms; the base year of the fundamental indices which is produced according to Short Term Business Statistics is being renewed at the years ending with 0 and 5 and published in the third year following the base year. Thus, the series published previously as the 2010 base year have been updated to the 2015 base year in the new calculation set.

Within the Labour Input Indices;

- Employment Index
- Hours Worked Index
- Gross Wages-Salaries Index
- Hourly Labour Cost Index
- Hourly Earnings Index
- and the hourly labour cost excluding earnings index is calculated with 2015 base year.

In addition, labour input indicators published in different news bulletins which are Industrial Labour Input Indices, Construction Labour Input Indices, Trade and Service Indices and Labour Cost Indices will be published as a single news bulletin under the name of Labour Input Indices. Labour Input Indices will be published periodically within t + 60 days in an harmony with the relevant European Commission legislation.

Updated Labour Input Indices covers these sections below according to NACE Rev.2.classification;

- Section B - Mining and Quarrying
- Section C - Manufacturing
