INTERNATIONAL MIGRATION STATISTICS, 2017

Migration is a global phenomenon of ever-growing importance that has economic, political, demographic, social and cultural impacts. Annual migration flow statistics take an important place in the field of demography, development of socio-economic plans and policies at national and local level, and migration management.

Turkish Statistical Institute produced information on immigration and emigration, namely annual migration flow statistics, for the first time based on administrative registers.

In this context, the "International Migration Statistics, 2017" news bulletin which is not involved in the National Data Release Calendar, will be released on September 05, 2018 at 10:00.

Announced to the public with respect.
