PROVINCE INDICATORS APPLICATION

The Province Indicators application has been made available for public access to meet information requests of individual and institutional users at provincial level. This application is provided with 101 indicator covered under 15 statistical topics within metadata at provincial level.

In this context, all the indicators for a designated **province** may be reported in time series as well as an individual **indicator** may be reported for all the provinces by this application which is enriched with graphics, and maps. Additionally, all indicators for all provinces may be inquired for a specific **year**.

The application can be accessed by Province Indicators on the "Statistical Indicators" title on the main page of the Institution's web site.

Respectfully presented to the public.
