ANNOUNCEMENT

“Adult Education Survey, 2012” which is not involved in the “National Data Release Calendar” is due to be released at 10:00 am on 31 July 2013

The main goal of Adult Education Survey, in which “adult” is defined as individual 18 years old and over, is to compile information on formal or non-formal education and informal learning activities to develop professional or personal space of individuals in the knowledge and skills in the context of lifelong learning. In addition to participation rate of individuals according to age group, gender, education attainment level and labor status, many indicators such as the access to information, reasons of participation in education and providers of education activities have also been calculated with this research which had been applied firstly in 2007 and secondly in 2012.

Announced to the public with respect.
